## "CHESTER DRAWERS"

"Chester Drawers" was created after I read The Cabinet of Curiosities by Douglas Preston & Lincoln Childs. Speaking to my obsession with faces in things, this was a truly one-of-a-kind piece. Every interesting scrap from Ash to Zebrawood went into this whimsical project. Chester was a popular attention-getter at area art fairs until my wife became too attached to his knob-eyed expression and was afraid I would sell him.

- 44" T x 37" W x 15" D
